EXPERIENCE

DAILYPAY
New York, NY
2016 – present

SOFTWARE ENGINEER: First non-founding developer hired at seeded Fintech startup and largest single contributor to codebase. Have been an integral part of DailyPay's growth from a staff of 8 to 50, and from angel round to Series B.

Code contributions have led to over $200 million in daily payments.

Participated in hiring and training of developers on our API and best practices.

Lead developer on Enterprise product, participating on calls with companies with over 50,000 potential customers.

Scaled increase in AWS SQS from less than a million messages to over 55 million messages, and a 20x increase in account growth from less than 10 thousand users to nearly 200 thousand users.

Developed real-time monitoring systems for daily crawls using Crossfilter and D3.

Developed APIs that crawl and authenticate for 75% of our on-demand driver platforms (Uber, Doordash, and others), and 95% of our Enterprise B2B platforms.

Diagnosed security issues in third party APIs in the process of reverse-engineering their functionality.

Increased test coverage by over 45%.

Contributed to open source projects that DailyPay relies upon.

2009 – 2015

PROFESSIONAL MUSICIAN: Performed and studied with one of the best living Appalachian fiddlers. Taught dozens of students Appalachian style banjo and fiddle.

SKILLS

Ruby, Rails, JavaScript, ES6, React, Flux, Sass, HTML, SLIM, SQL, Postgres, MVC architecture, Python (learning), Elixir (learning)

EDUCATION

APP ACADEMY
New York, NY
2015 – 2016

WEB DEVELOPMENT: Full-stack web development course with an acceptance rate of less than 3%. Emphasis on TDD, pair programming, and design patterns.

SUNY EMPIRE STATE
New Paltz, NY
2005-2009

BA MUSIC: 3.75 GPA. Volunteered at Hop High Productions, a nonprofit World Music series.
